Butte, Mont., Oct. 23.—By a general shut down of the Amalgamated Company's property last night nearly fifteen thousand men were thrown out of employment, and within a week the grand total may reach twenty thousand. Other roads will also have to reduce their forces in consequence of this shut down, and numerous other enterprises which have relied on the Amalgamated as their chief customer will be obliged to curtail their forces. In Montana, alone, approximately a million dollars a week will be cut off the present pay rolls. The streets of this place are today filled with seven thousand miners who are thrown out of employment.
